Βaptist Lui Ming Choi Secondary School

Subjects in Form 4

HKDSE core subjects：Chinese, English, Mathematics (compulsory part), Liberal Studies

Non-HKDSE subjects：Religious Studies (Christianity), P.E. and CTP / GAP

Class	A	B	C	D	E	F
M1/M2	M2	---	M1	---	---	---
X1	Phy	Chem	Phy	Bio / Econ / CLit		
X2	Chem	Bio / Chem / BAFS (Man) / Hist / Geog				
X3	Bio / VA / ICT / Econ / Geog / BAFS (Acc) / CHist					

Selection Criteria for Subject-group

Main Criterion (Screening Index)
Screening Index for subject-group selection is based on the subject marks in the first term and second term. The ratio of the first term to the second term is 3 and 7 (ie.

3：7). The formula is shown below.

> Screening Index =
>   **(Chin + Eng + Math) · 2 + (Phy + Chem + Bio + Geog + C.Hist + Hist + Comp Lit.) · 1**

Supplementary Criterion
If students share the same screening index, the following two supplementary criteria will be considered: (1) Mean score in the 2nd term and (2) Conduct in the 2nd term.

Remarks
Only students who have taken Visual Arts in Form 3 or have sought the approval from the subject panel head of Visual Arts are allowed to select the subject groups with Visual Arts.

Add / Drop Subjects

Adding an extra subject

According to the HKEAA, students may take up to a maximum of eight subjects including the core subjects. One of the four elective subjects must come from Categories A, B or C as follows:

Category A：**Ethics and Religious Studies / Music / Physical Education / Visual Arts**
Category B：**Applied Learning subjects**
　　　Applied Science / Business, Management and Law / Creative Studies /
　　　Engineering and Production / Media and Communication Services
Category C：**Other language subjects***
　　　French / German / Hindi / Japanese / Spanish / Urdu
　　　Languages other than Chinese and English will be examined using the question papers of Cambridge International Examinations (CIE)

Our school only offers music (District Network programme). The other subjects, added as the 4th elective subject, are not offered by the school. Students have to use the self-study mode.

Who can add an additional subject?
1.   Students who rank top 20% in the whole form in Form 3.
2.   Not more than 1 subject failed in the second term of Form 5

Dropping a subject

This could be done after the first term and second term examination in Form 4, and first term and second term examination in Form 5.

Adding an Applied Learning Subject

Students with special talents in some rather non-academic areas such as drama, film production and dance may apply to study a 2-year programme of Applied Learning Subject in the 2nd term of Form 4. The period of study continues in F.5 and F.6, starting from September (F5) and ending in Jan (F6). Details will be given in F.4.
