Join us &  
make a difference

We thank for your generous support to share our burden in the past. We are supporting students

- ✦ to enjoy their school life in a more spacious campus.
- ✦ to spark off their potentials on a new stage.
- ✦ to learn and explore towards the needs of 21<sup>st</sup> century.
- ✦ to aim and achieve high.

**Our Promise**

We definitely spend every single token on our students. You can access our website to view the updated information. Activities highlights will also be posted on the school website.

## LUI KWOK PAT FONG TEACHING BLOCK (NEW BLOCK)

- **6/F Roof-top Garden**  
Roof-top Garden is a little leisure courtyard exclusively for teachers to take a break after a busy day of teaching.
- **5/F Roof-top Playground**  
Roof-top Playground provides space for training of school teams. Adventure and creative activities can also be arranged to broaden the experience of students. With the support of Quality Education Fund, we are going to set up an archery field for students to taste the joy of archery.
- **4/F Classrooms**  
Spacious classrooms can be found. It comes with lockers, air-conditioners and different electronic teaching devices which provides an absolutely comfortable environment for learning.

- **3/F Classrooms & Staff Rooms**  
Three new staff rooms and classrooms are located on this floor. With L-shape working tables and partitions, teachers have a more unified and independent working environment.

- **1-2/F Auditorium**  
LMC Auditorium is a perfect place for different performance. With the installation of retractable seats and stage, it allows more flexibility on organizing activities for students.

## TEACHING BLOCK (OLD BLOCK)

**3/F School Library**

A sophisticated and spacious library enables students to broaden their knowledge and conduct self-learning. Students can organize study groups and activities. Seminars and training courses can be held more flexibly.

**5/F Roof-top Garden**

The Roof-top Garden is named as the Leung's Garden which is a way to express the love to his mother of our donor Mr. Leung. Students or teachers can spare their time to take a break or chat with friends in the Garden.

**G/F Maker Lab**

Maker Lab is designed for students to explore interesting science and technology. The imagination and creativity of students is stimulated and cultivated with the implementation of STEM education.

**2/F Student Activity Center**

Student Activity Center is just round the corner. It provides a place for student to come together and make friends. Indoor activities can be organized to cater the needs of student of different forms.

**2/F Home Economics Room**

Home Economics is gradually faded out in most of the secondary schools. Nonetheless, we believe it is crucial for students' growth. They can manage their living independently in the future with the skills learnt in lessons. This is the reason why we are going to upgrade the room in the near future.
